The Pink Door

Palatka

Downtown Historic District

Compassion, it's our nature.

The Pink Door is the premiere resource for women who wish to improve their body image. We offer professional bra fittings to resolve your breast symmetry needs following mastectomy, lumpectomy, reconstruction, reduction or augmentation. We also offer solutions to those women who have full busts or who have developed unevenly.

Located in a lovely house in the south historic district of Palatka, **The Pink Door** is dedicated to offering women hope and support in a soothing and welcoming environment. We think of ourselves as a fashion boutique, not a medical supply house. Our skills focus on providing complete specialized service while making our customer feel she is having a pleasant visit with a friend. Each staff member is a Certified Fitter and is exceptionally trained to educate each woman as to why a prosthesis and proper fitting bra are essential to both her physical and emotional well being. The fitting solution is tailored to each person. You can be assured of receiving what is appropriate for your needs and desires.

The Pink Door prides itself on offering high quality options to its customers. We carry the most up to date medical devices and fashion foundations. Our extensive inventory covers fittings for band sizes 28 to 56 and cup sizes AA to M. In most cases our customer will go home with everything she needs on the first visit.

Our mission is “to provide women a warm and attentive environment where they can be professionally fitted for bras that will minimize their imperfections and maximize their potential by competent, concerned fitters.” We take pride in enlightening and educating women to the

advantages and pleasures of proper fitting bras.

For women who have difficulty finding a bra to alleviate such things as shoulder and back strain, headaches, poor posture and sagging breasts, we have a number of garments to remedy these problems. For the pregnant or nursing mother, we also carry nursing bras and abdominal support garments.

The Pink Door also offers products for other conditions such as medical hair loss, lymphedema and chronic venous insufficiency.

Your needs are profoundly personal ones. It is not only important to guarantee proper fit and comfort of your selections; you must also feel the support and caring of those helping you to reclaim your self-image and confidence. We will send you out the door feeling encouraged for the future. As one satisfied customer says “The store is a little

farther than others, but I received a very personalized service and the staff is very caring and goes out of their way to find what I need and fits me well.”

Another says “For years I’ve just grabbed an armload of the biggest bras I could find and

hoped for the best. My size was way off, and the regular stores don’t even carry what I need. Even the plus-size shops. Don’t suffer another day with less than adequate support!! Do your girls a favor and go see Susan at **The Pink Door!!**”

The Pink Door is an Accredited Medicare provider. “**The Pink Door** has demonstrated its commitment to the provision of quality patient care services by seeking and attaining ABC accreditation,” said Catherine Carter, ABC’s Executive Director. “ABC has developed the highest standards for accreditation in the industry and is proud to include **The Pink Door** among our 1,400 accredited

patient care facilities.” When you have a breast cancer diagnosis you may be eligible for a prosthesis and bras covered by insurance. We will file the necessary paperwork for your insurance claim. Visa, Master Card and checks are accepted.
